

POWER PURCHASE AGREEMENT
Between
[QUALIFIED PRODUCER]
And
TENNESSEE VALLEY AUTHORITY

This **AGREEMENT** (Agreement), effective the date of TVA's signature on the contract cover sheet (Effective Date) is made and entered into between [Name of Counterparty] (Qualified Producer); and Tennessee Valley Authority (TVA), a corporate agency and instrumentality of the United States of America created and existing under and by virtue of the Tennessee Valley Authority Act of 1933, as amended (TVA Act);

W I T N E S S E T H:

WHEREAS, Qualified Producer intends to own and operate a solar generation facility located at [address of solar facility stated on the contract cover sheet] for the production of electrical energy, which facility will have a rated capacity of up to ___ kW stated on the contract cover sheet; and

WHEREAS, Qualified Producer's facilities will produce electric energy that Qualified Producer desires to sell to TVA beginning on or about [anticipated delivery date stated on the contract cover sheet] or as soon thereafter as arrangements for Qualified Producer's facilities are put into place; and

WHEREAS, TVA is engaged in the generation, transmission, and supply of electric energy in the Tennessee Valley region; and

WHEREAS, Qualified Producer and TVA will be connected by virtue of the electric system of [local power company name stated on the contract cover sheet], a (cooperative or municipal) electric system that purchases and distributes electric energy to consumers pursuant to a wholesale power contract with TVA; and

WHEREAS, consistent with provisions of the Public Utility Regulatory Policies Act of 1978, as amended (PURPA), and the Federal Energy Regulatory Commission's (FERC) rules implementing such statutory provisions, TVA has developed a Dispersed Power Production Program and Guidelines governing the purchase of electrical energy from qualifying facilities; and

WHEREAS, Qualified Producer desires to participate in the Dispersed Power Production Program as provided in the Guidelines by delivering electric energy from Qualified Producer's facilities to TVA for purchase by TVA in such amounts as Qualified Producer deems appropriate; and

WHEREAS, Qualified Producer and TVA intend for this Agreement to set forth the obligations of Qualified Producer and TVA upon Qualified Producer's fulfillment of all requirements under the provisions of PURPA, as applicable, and the FERC rules implementing such provisions in order to be considered a qualified producer who owns and operates a qualified facility;

NOW, THEREFORE, for and in consideration of the premises and of the mutual covenants hereinafter set forth, and subject to the provisions of the TVA Act, the parties hereto (the Parties) mutually covenant and agree as follows:

1. Term of Agreement. This Agreement may not become effective prior to the date on which Qualified Producer can demonstrate to TVA's reasonable satisfaction that Qualified Producer has both: (i) taken all steps required by the Federal Energy Regulatory Commission to obtain certification that Qualified Producer owns and operates a qualified facility as defined, and that meets all qualifications set forth in, 18 Code of Federal Regulations (C.F.R.), Part. 292, and (ii) fully complied with the filing requirements set forth in 18 C.F.R. 292.207, "Procedures for Obtaining Qualifying Status" in order to be considered a Qualifying Facility (QF). It is understood that pursuant to 18 C.F.R. 292.203, there is an exemption for generators with net power production capacities of 1 MW (1000 kW) or less from the requirement to file Form 556 in order to obtain QF Status. Qualified Producer is solely responsible for determining if this exemption applies to its Production Facilities. If (i) despite the exemption, Qualified Producer chooses to file Form 556 to obtain QF Status anyway, or (ii) due to any facility expansion, certification is required to obtain or maintain Qualified Producer's QF Status under 18 C.F.R. 292, then Qualified Producer shall submit a copy to TVA of any such filing or certification. Notwithstanding the preceding sentences, if and when all of the foregoing conditions precedent are met in order for this Agreement to become effective, all provisions relating to Qualified Producer's delivery to TVA of, and TVA's payment to Qualified Producer for, electric energy generated by Qualified Producer shall become effective on the date (Delivery Date) on which Qualified Producer is ready to deliver, and TVA and Local Power Company are ready to receive, said electric energy, which Delivery Date shall not be earlier than [anticipated delivery date stated on the contract cover sheet]. This Agreement shall continue in effect for a term of five (5) years; provided, however, that Qualified Producer may terminate this Agreement at any time on or after the date falling one (1) year after the Delivery Date upon at least six (6) months' prior written notice to TVA or, if Qualified Producer's facilities cease to be qualified facilities under the Guidelines, TVA may terminate this Agreement by giving at least sixty (60) days' prior written notice to Qualified Producer, and the obligations of the Parties shall be of no further force or effect. The Parties' payment and responsibility obligations (including those under sections 5, 7, and 9 of this Agreement), however, shall survive the expiration or termination of this Agreement until they are satisfied.

2. Delivery of Electric Energy By Qualified Producer. Qualified Producer shall deliver to the Delivery Point specified in section 4 hereof, and TVA shall receive and pay for, electric energy delivered from Qualified Producer's generating facilities to the Delivery Point (which generating facilities shall include all of Qualified Producer's electrical facilities and equipment up to the Delivery Point (Production Facilities)), in amounts that may vary from time-to-time as Qualified Producer deems appropriate but that shall not exceed ___ kW stated on the contract cover sheet at any one time.

3. Dispersed Power Production Guidelines. It is understood and agreed by the Parties that the arrangements between the Parties for the purchase by and delivery to TVA of electric energy hereunder, including necessary facility arrangements, shall be carried out in accordance with TVA's Dispersed Power Production Guidelines (Guidelines), as applicable, as such Guidelines now exist or may hereafter be modified. In the event of any conflict between the provisions of the Guidelines and any provisions of this Agreement, the latter shall control. TVA will provide Qualified Producer copies of any proposed guideline changes as much in advance of their effective date as practicable.

4. Conditions of Delivery.

(a) It is recognized that Local Power Company and Qualified Producer, at no cost to TVA, shall under separate arrangements between Local Power Company and Qualified Producer provide a point of delivery (Delivery Point) for electric energy to be sold to TVA. Subject to (b) below, the Delivery

Point for electric energy to be sold to TVA hereunder shall be the interconnection point of Qualified Producer's facilities to Local Power Company's facilities as determined in a separate agreement executed by the Qualified Producer and the Local Power Company to provide for the interconnection of the Production Facilities to Local Power Company's electric system (Interconnection Agreement). Qualified Producer shall be responsible for maintaining any existing and necessary Interconnection Agreement and entering into any necessary and appropriate Interconnection Agreement for future expansions to the Production Facilities, at Qualified Producer's sole cost and expense. Connection of the Qualified Producer's and the Local Power Company's facilities is subject to the Rules and Regulations of the Local Power Company.

(b) For Production Facilities with a net production capacity of 250 kW or less, no transmission screening by TVA will be performed, although TVA reserves the right to perform such screening should TVA deem it necessary. For Production Facilities with a net production capacity over 250 kW, a transmission screening will be performed by TVA to determine system impacts. If (i) the Production Facilities fail such screening, or (ii) the Production Facilities have a net production capacity of more than 5 MVA, then a transmission study will be performed by TVA at Qualified Producer's sole cost and expense.

(c) It is expressly understood that Qualified Producer is responsible for the protection of the Production Facilities by providing the local protection scheme necessary to isolate the Production Facilities when the TVA power source is lost. Accordingly, Qualified Producer must provide and install, at its expense, any necessary protection and control devices for the Production Facilities so that the Production Facilities detects an islanding condition (a condition in which a generator continues to power a location even though electric power from the electric grid is no longer present) and trips or disconnects the Production Facilities from the connecting electric system in less than 10 cycles (0.1667 second).

5. Payments to Qualified Producer for Electric Energy Received by TVA.

(a) From recorded meter data provided by the metering equipment installed per section 7 below, the Qualified Producer shall be paid monthly for all electric energy received and purchased by TVA in accordance with TVA's Dispersed Power Price Schedule CSPP attached hereto and made a part hereof (as said schedule may be modified, revised, replaced, or adjusted by TVA from time to time).

(b) TVA shall provide Qualified Producer a detailed accounting of the amounts of electric energy received, as determined by TVA. From said meter readings and in accordance with this Agreement, TVA shall calculate the monthly amount to be paid for electric energy received by TVA and shall promptly render payment to Qualified Producer within 30 days after the end of the month during which said electric energy was received. Each payment to Qualified Producer shall be made electronically through the Automated Clearing House (ACH) network to Qualified Producer's account at a bank designated by Qualified Producer that will accept electronic fund transfers through the ACH network, in which case TVA shall have four additional working days to effect a transfer of funds.

(c) Amounts owed by each Party to the other Party during a monthly billing period under this section 5 shall be offset against each other so that only one Party shall pay a net amount to the other Party.

6. Local Power Company's Power Supply to Qualified Producer. Deliveries of electric energy by Local Power Company to Qualified Producer shall be under arrangements provided separately from this Agreement, shall be metered and accounted for separately from the electric energy deliveries made by Qualified Producer to TVA hereunder, and shall otherwise be provided in accordance with the applicable rates, rules and regulations, and service policies governing such service by Local Power Company to Qualified Producer.

7. Metering and Inspection of Records.

(a) For Production Facilities with a net production capacity of 5 MVA or less, Qualified Producer shall enter into separate arrangement(s) with Local Power Company to provide TVA with monthly readings of the metering and related facilities (Metering Installation). The Metering Installation shall be used to determine the amounts of electric energy delivered to and purchased by TVA at the Delivery Point under this Agreement. Metering Installations greater than 500kw and capable of recording at least clock half-hour interval data will be paid under Part B of the Guidelines. Metering Installations less than 500kw or not capable of time differentiation will be paid under Part A of the Guidelines. TVA shall have the right to verify these monthly readings. Qualified Producer grants to TVA, and shall obtain from Local Power Company for TVA, the necessary access rights to the meters in order for TVA to perform such verifications.

(b) TVA assumes no responsibility for the adequacy or functionality of the Metering Installation. Qualified Producer shall coordinate with the Local Power Company, through its separate arrangement(s), to ensure that electric energy to be delivered to and purchased by TVA is accounted for properly. TVA shall not be required to pay for any energy not appropriately metered hereunder.

(c) Production Facilities with a net production capacity over 5 MVA shall require a TVA meter, and Production Facilities with a net production capacity over 25 MWs shall require redundant TVA metering and a communications path to TVA. Qualified Producer shall enter into a separate metering agreement with TVA to ensure that appropriate metering and equipment are installed that will determine the amounts of electric energy delivered to and purchased by TVA at the Delivery Point under this Agreement.

(d) Each Party shall have the right at its own expense, upon forty-eight (48) hours' advance notice and during normal business hours, to inspect the books and records of the other Party pertaining solely to the performance of this Agreement at the offices of the other Party, to the extent necessary to verify the amounts of electric energy delivered, the amounts owed to Qualified Producer by TVA, and any amount owed to TVA by Qualified Producer. The Party conducting the inspection shall use its best efforts to minimize any disruptions of the other Party's operations that might result from any such inspection.

8. Risk of Loss Except as provided in section 9 below, each Party assumes all risk of loss, injury, or damage to its own facilities or system resulting from interruptions or curtailments, regardless of cause.

Each Party shall notify the other Party promptly of the development of any cause of interruption or curtailment and shall remedy the effect of any such cause as promptly as practicable.

9. Indemnification. Qualified Producer hereby releases, and shall indemnify and save harmless TVA and its respective agents and employees from, all liability, claims, demands, causes of action, costs, or losses for personal injuries, property damage, or loss of life or property sustained by Qualified Producer, its agents and employees, or third parties arising out of or in any way connected with the activities within the scope of this Agreement, except for negligence or intentional misconduct of TVA or its respective agents or employees.

10. Notices. Any notice or other communication required or desirable by either Party under this Agreement shall be in writing. TVA may post information on the TVA Dispersed Power Production

webpage accessible at <https://www.tva.com/Energy/Valley-Renewable-Energy/Dispersed-Power-Program>. All notices and communications shall be directed to a Party as designated in (a) or (b) below, except that, where circumstances require, oral notices may be utilized if confirmed in writing. Such notices or communications shall be deemed properly given if provided electronically on a computer-based information system designated by TVA for such purpose. The designations under (a) or (b) below may be changed at any time and from time-to-time by notice.

12. Successors and Assigns. This Agreement may be assigned by TVA but shall not be assignable by Qualified Producer without the prior written consent of TVA, which consent shall not be unreasonably withheld, except that no additional consent shall be needed for the assignment by Qualified Producer to a

wholly owned subsidiary of Qualified Producer or Qualified Producer's successor by any bona fide merger, reorganization, or consolidation.

In the event of any such assignment, the Parties shall remain liable for the faithful performance of this Agreement in all respects by their respective assigns, and such assigns by acceptance of such transfer or assignment shall likewise become bound for the full performance of this Agreement.

13. Certain Statutes, Executive Orders, and Implementing Regulations. Lobbying. This Agreement is subject to the requirements of Public Law No. 101-121 (codified at 31 U.S.C. § 1352), which prohibits certain lobbying activities and requires disclosure of certain others, and to TVA's implementing regulations published at 55 Fed. Reg. 6736 (codified at 18 C.F.R. § 1315).

A. Prohibition, Certification, and Disclosure

- (1) Appropriated Funds. Section 319 of Public Law No. 101-121 provides that none of the funds appropriated by any act of Congress may be expended by the recipient of a Federal contract, grant, loan, or cooperative agreement to pay any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with: (a) the awarding of any Federal contract; (b) the making of any Federal grant; (c) the making of any Federal loan; (d) the entering into of any cooperative agreement; or (e) the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
- (2) Certification. Qualified Producer, by signing this Agreement, certifies in accordance with Exhibit, "Certification for Contracts, Grants, Loans, and Cooperative Agreements," attached hereto and made a part hereof ("Certification"), that it has not violated the foregoing prohibition.
- (3) Other Than Appropriated Funds. Except as provided in subsection D, below, if Qualified Producer has paid or will pay any funds other than Federal appropriated funds to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with this Agreement, Qualified Producer shall complete and submit to TVA Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions. (Copies of Standard Form-LLL may be obtained from the TVA representative for this Agreement.) The requirements of this subsection A(3) shall not apply to payments of reasonable compensation to regularly employed officers or employees. The term "regularly employed," with respect to an officer or employee of a person requesting or receiving an Agreement, means an officer or employee who is employed by such person for at least 130 working days within one year immediately preceding the date of the submission that initiates TVA's consideration of such person for receipt of such Agreement.

- B. Updating. At the end of each calendar quarter in which there occurs any event that materially affects the accuracy of the information contained in the Certification or, if applicable, Standard Form-LLL, Qualified Producer shall file with TVA an initial or new Standard Form-LLL with such new information or modifications as are necessary to correct any inaccuracies in the information originally declared and certified.
- C. Subcontractors. Qualified Producer shall include or cause to be included the form of the Certification in any subcontract exceeding \$100,000 at any tier. Qualified Producer shall promptly file with TVA each Standard Form-LLL provided by a subcontractor.
- D. Exceptions. The prohibition described in subsection A(1) above and the disclosure requirements in subsection A(3) do not apply in the case of (1) a payment of reasonable compensation made to an officer or employee of Qualified Producer to the extent that the payment is for agency and legislative liaison activities not directly related to a Federal action referred to in subsection A; or (2) any reasonable payment to a person, or any payment or reasonable compensation to an officer or employee of Qualified Producer, if the payment is for professional or technical services rendered directly in the preparation or negotiation of this Agreement.
- E. Definitions. Terms not defined herein shall have the meanings ascribed to them in 31 U.S.C. §1352 and TVA's implementing regulations.
- F. Penalties.
