

NOTICE OF ESTABLISHMENT OF AN ASSESSMENT MONITORING PROGRAM
GALLATIN FOSSIL PLANT
NORTH RAIL LOOP LANDFILL

In accordance with 40 C.F.R. 257.94(e)(3) and 40 C.F.R. 257.105(h)(5), notification is hereby issued that TVA has established an assessment monitoring program as of July 21, 2022, for the North Rail Loop Landfill at the Gallatin Fossil Plant in response to Statistically Significant Increase(s) (SSI) over background in one downgradient monitoring well. There is no evidence that there has been a release from the landfill based on multiple lines of evidence. Additional data collected during Assessment will allow for further evaluation of potential sources, including natural variability in groundwater chemistry.
